

CORE GROUP

ECONOMIC ANALYSIS

Economic Analysis Intern

BEIRUT · INTERNSHIP

THE WORK

Core Group reads the region across eight analytical domains. The economic domain follows currencies, reserves, budgets, and the slow pressures that decide whether a state holds. This role supports that work: building the evidence base, handling data, and helping turn it into clear analysis.

THE PROFILE

A student or recent graduate in economics. A grounding in monetary and fiscal fundamentals, how budgets are built, and how forecasts are made and tested. Careful with numbers, clear in writing. Familiarity with the region's economies is an advantage.

TO APPLY

Send a CV and a short writing sample to careers@beirutcore.com, with the role in the subject line.
